## The homework help program

**This program is aimed at children in French immersion from SK up to grade 9.**

Children learn as much out of school as they do in school. They learn things at home and in their community.

Parental interest and involvement in their child's education sends a strong message to children that education is important, and that learning can be fun and worth the effort.

Teachers assign homework for many reasons. It can give students extra practice time, apply information learned, and help them expand their knowledge beyond what they learned in class.

The majority of times parents have to re-explain the same lesson that the child learned at school before they start doing the homework.

Ninety percent of parents whose children are in French immersion do not speak French themselves and cannot provide this daily help to their children in their learning path.

**Ecole Napoleon** offers a homework help program for children who are in French immersion from Senior Kinder Garden up to Grade 10 in all subjects: French, math, history, geography etc...

### The homework help program provides:

- An entirely French environment for your child
- Your child studies in a small group. (3 to 5 students)
- Professional instructors who will make sure your child understands the concepts before he/she starts doing the homework
- Professional help with your child's homework
- We ensure an entirely continuous French environment for your child throughout the session
- We provide quality instruction and personalized contents.
- We utilize quality educational material, including audio and video tapes, CD-ROMs, books, etc...

Our homework help program allows your child to finish his or her homework before 5.45 pm and go home with you without any homework left. This will relieve you as the parent and provide more freedom to enjoy other activities with your child.

**\* We also offer tutoring for special needs for students who need to fill any voids left from previous academic years.**
